Lets prevent crime in April

Change your smoke detector batteries & vacuum them to remove dust. Consider their placement & always locate an extra detector in hallways away from bathrooms/steam near the bedrooms.

Theft from motor vehicles is extremely common. Lock your car, do not leave iPads, phones, wallets or cash overnight in the car. If you have sensor lights maintain them by replacing globes & trimming bushes.

Many burglars will doorknock before committing property crimes. They are opportunists & will use your tools to break in if you leave them lying around. Remind children never to open the door for anybody.

Ask neighbours to empty your letterbox & rubbish when on holiday. If you have side gates/doors make sure they are locked when you are not home. Thieves will invariably target the weakest property - Don't let it be yours.

Make sure you are adequately insured—word of mouth is a great way to find a decent insurer.

Remember it is better to be slightly over rather than under insured. Monitored security alarms can attract insurance discounts.

Common criminals are after small expensive items - Therefore make sure anything smaller than a tablet computer or anything little of great value is in a safe place or in a part of the house protected by an alarm motion detector.

Test your alarm before going away. Have any faults fixed prior to departure. Do Not leave security to the last minute.

Alarm, CCTV & Intercom repairs & Installations. We come to you.
