

## Installation Guide on how to connect your DVR to your Blackberry™ Phone.

1. You will need to have Blackberry™ Desktop Manager installed on your computer. If you do not have the installation disk for the Blackberry™ Desktop Manager, then you can download it from <http://na.blackberry.com/eng/services>.
2. Next you will need to download the B\_Rams application for your Blackberry™ phone. Download and save the B\_Rams zip file on your root directory which is located on your C drive (please view below for clarification).

Once you have saved the B\_Rams zip on your root directory, right click on the B\_Rams file and select **Extract to B\_Rams\**. If you have done this procedure correctly, then you will see a B\_Rams folder on your C drive directory. Double click on the B\_Rams folder to open.

3. Connect your Blackberry™ phone with your computer via the USB connector cable that came with your Blackberry™ phone. You **DO NOT** need to open the Blackberry™ Desktop

Name	Date modified	Type	Size
B_Rams.alx	6/30/2010 3:55 PM	ALX File	1 KB
B_Rams.cod	7/13/2010 1:50 PM	COD File	297 KB
install.bat	6/30/2010 3:58 PM	Windows Batch File	1 KB
JavaLoader.exe	9/16/2006 12:40 PM	Application	96 KB
license.txt	5/16/2010 5:44 PM	Text Document	1 KB
screenshot.bat	7/8/2010 12:35 PM	Windows Batch File	1 KB
uninstall.bat	7/8/2010 12:41 PM	Windows Batch File	1 KB

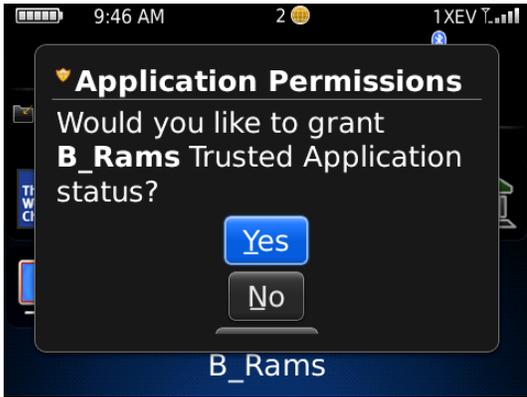

Manager program. Once you have made the connection, double click on the **install.bat** program. This program will automatically install the B\_Rams application onto your Blackberry™. This process only takes a few seconds and a separate command prompt window will open. If you have performed the procedure correctly, you will see the information below on your command prompt.

```
C:\Windows\system32\cmd.exe
C:\B_Rams>"C:\B_Rams\javaloader.exe" -usb load B_Rams.cod
RIM Wireless Handheld Java Loader

Press any key to continue . . .
```

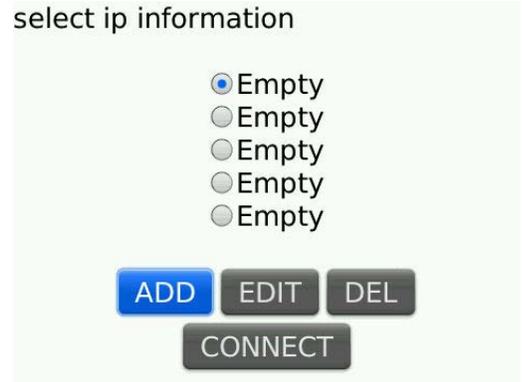

4. Go to your Downloads folder on your Blackberry™. You will now see a new application B\_Rams. Open the B\_Rams application.

5. You will have to grant B\_Rams permission to be able to run the B\_Rams application on your Blackberry™.

- 6. After opening the B\_Rams application, scroll down and select the 1<sup>st</sup> **Empty** slot and then scroll down to the **ADD** button and select.

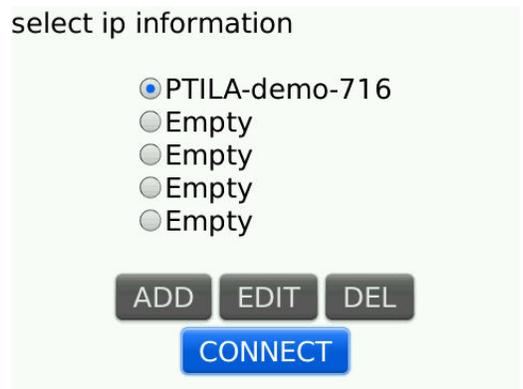

- 7. Enter all the correct parameters to network to your DVR.
  - \*\*NOTE\*\* DVR Name** is any name you want to remember this particular connection; i.e., MyStore or SD-Cleaners.
  - ID** will be in most cases ADMIN (all caps).
  - Password** will be numeric entries so please use the *alt* key when entering numbers here.

After you have entered the networking parameters, go to the **SAVE** button and select. When the B\_Rams accepts the new connection you will see a **Success!** pop-up.

- 6. Next press the **CLOSE** button to revert to the Main Screen on the B\_Rams application. Now select the **NEW** connection and then go to the **CONNECT** button and press select.

7. You will be able to see your cameras in Quad-Screen mode when the connection has been made properly between your Blackberry™

If your DVR is an 8 or 16 channel unit, you can access more Quad-Screen views by pressing the “N” key on the Blackberry™ for *Next Screen* or the “B” key for *Back Screen*.

If you want to view a single channel from the Quad-Screen view, then scroll to the channel (highlighted by a yellow frame) and press the select button on the Blackberry™.

To exit single screen view, just press the select button on the Blackberry™ to revert back to Quad-Screen view.

- 8. On any view you can toggle to any particular single camera view by pressing the corresponding two digit keys on the Blackberry™. For example, if you want to go to channel 6, then you would press the “0” (zero) and “6” (six) key on the Blackberry™. **\*\*NOTE\*\*** You do not have press the Alt key for the number.
- 9. To exit the B\_Rams application, you can either press the Blackberry™ *Menu* key and select **Close** or the *Escape* key.

Cursor / Select

Escape Key

10. To uninstall the B\_Rams application from your Blackberry™, you can either go to the B\_Rams application under Downloads and press the *Menu* key, and then scroll down to **Delete**. If your Blackberry™ does not have this delete option, then go to the B\_Rams folder on your computer's C directory. In the B\_Rams folder, there is a uninstall.bat file. Connect your Blackberry™ phone with your computer via the USB connector cable and then open the uninstall.bat file to delete the B\_Rams program.
